It is Always Happening at Shiloh

INSTANT PREGNANCY AND BREAKTHROUGH ON SHILOH GROUND

We got married and for 3 years after that time, we were trusting in the Lord for the fruit of the womb, but it seemed like nothing was happening. We came to Shiloh, believing God to bring us up and out of the grave of barrenness. On the Wednesday Morning Session of that particular Shiloh, as Papa, making prophetic declarations, all of a sudden, he shouted “In fact. It has happened”. Then all of a sudden, my wife who was having the signs of her menstrual flow realized that when papa shouted, “In fact, it has happened”, the menstrual flow ceased on the spot. Afterwards, we went to Covenant University Medical Center for pregnancy test and my wife was confirmed pregnant on the spot. We were dazed. Exactly 9 months later, my wife put to bed a lovely baby boy. As if that was not enough, shortly after my wife was confirmed pregnant again, God blessed my wife and I with miracle jobs almost at the same time. These jobs looked too good to be true and our offices are located opposite the other. We give God all the glory!” — *Paul & Mabel E.*

DELIVERED FROM INSANITY AT SHILOH

I am a driver by profession and drive a city taxi. Suddenly, I lost control of myself, lost my memory and turned into total insanity. I didn't know what then happened. I became violent and became a risk both to myself and those around me. But my family brought me to Shiloh my hands and feet tied with nylon rope and made me to sit on the floor. Immediately, after the last prayer of this morning session I am completely delivered from that mental affliction. Now I remember everything and perfectly ok. To God be all the glory. — *Bro. Tatek*
