

RURAL CHURCH ***Building Project*** **ACROSS** ***Nigeria***

We believe that all souls belong to our God, this includes the souls of both city and rural dwellers. We have a mandate to liberate the world from all oppressions of the devil through the preaching of the Word of faith and this must be why we have maintained undying passion for the rural dwellers since our Church planting began in 1987. Today, we have over 10,000 Churches in the rural areas across the length and breadth of Nigeria. The Church is in process of completing the 1st 1,000 Churches for the years and quite a number of members of the Church have completed and in the process of completing some of these Rural Church buildings, but we still have a long way to go. As at now, we have about 5,000 locations that required just a 100-

seat capacity, other ranges between 150 to 300 seat capacity sanctuaries.

The cost for a building rural Church with associated facilities is as follows:

100 – seat capacity – N 20,995,261.25

150 – seat capacity – N 23,542,998.59

200 – seat capacity – N 27,908,820.10

300 – seat capacity – N 32,540,424.00

You may not be in a position as at now to take on a whole building, but everyone has equal opportunity to get involved at our various levels, towards the realization of rural Church building mandate for the year 2021. We are to ensure that every seed dropped towards the project be clearly marked, when dropped in the course of Church services otherwise, direct transfer to the designated account is encouraged.

May the spirit of everyone of us be stirred up to take advantage of this kingdom advancement opportunity for our next levels of breakthroughs in life.

The designated account for this project is as indicated below:

Account Name: LFC- Rural Church Building

Bank: FBN

Account No.: 2014366167

Remain ever blessed,
